19/03/25

We have been made aware by a supplier that due to an operational oversight an area was felled that had exceeded/breached the boundaries of a licenced harvest unit.

The quantity of timber taken by ECC from the unit was very small and happened over a period of time: 13th September 2021 to 9th August 2022.
The volume was 0.05% of our total intake for 2021 &
The volume was 0.12% of our total intake for 2022.

Therefore, our overall % claim for FSC & PEFC was not affected by this.

We have received assurances from our supplier that this will not happen again.

If you have any questions, please contact us.

Regards,

Conor Fahy
General Manager
